

Get In

Ne-Yo

Energy is always from you
Uh uh
Says clear to me what you won't not do mhm mhm

Don't even know my name, baby you're not
I don't know...
Is the energy that makes you cool fr us to take
And ambition away

Uh get in into each other
Uh 'cause no one will feel get in
Uh get into one another
Uhh 'cause do what we really get in

And the music loud and the lights are low
Everybody is floating
How you're looking at me is how I know
The things are going
Don't wanna know your name
No one will tell you mine no no no
Let the energy say everything you need to say

Uh get in into each other
Uh 'cause no one will feel get in
Uh get into one another
Uhh 'cause do what we really get in

I'm here on this walk here and now
We're so safe...
