

Handle Me Gently

Ne-Yo

My attention's elsewhere you been saying
Attentive to you less and less and less these days
I need you to know there ain't no games I'm playing
I don't want nobody else, this love is here to stay

All I want is to be what you want
Baby, show me the way
She said

Love me tender, love me sweet
Love me like I'm all you'll ever need
(She said)
Touch me softly, touch me slow
Handle me gently, that's all you need to know

Baby girl, I know that I can be distant
Charge it to my hustle and my bad intentions
Want you to have everything that you been missing
(Said I wanna be better, girl)
I wanna be better girl, instruct me
And I'll listen

All I want is to be what you want
Baby show me the way
She said

Love me tender, love me sweet
Love me like I'm all you'll ever need
(She said)
Touch me softly, touch me slow
Handle me gently, that's all you need to know

I can be selfish yeah okay
I have a tendency to step in my own way
(My own way)
Baby, I love you no less
Than the day that you said yes
So know I hear you clearly when you say

Love me tender, love me sweet
Love me like I'm all you'll ever need
Touch me softly, touch me slow
Handle me gently, that's all you need to know

Ooh, she said touch me slow, handle me gently
That's all you need to know
