

# I Can't Do That

Ne-Yo

I can fly like a bird, I'm an eagle,  
I can shine like a nights brightest star,  
If ur lonely I can snap my fingers, and appear baby right where  
you are,

Girl anything you can imagine (Girl I can do it)  
hmmmm, make it rain take the sun out of the sky,  
If you can think of it I can do it,  
But let another man be by your side

Girl I, Just can't do that, I can't do that oh no  
(let somebody else be with you)

Girl I, just can't do that, I can't do that oh no  
(Let him touch you let him kiss you)

Girl I, just can't do that, I can't do that oh no  
Baby I can do anything

They should know that, but I just can't do that.

I can be kinda mean kinda selfish (kinda selfish),  
I can act like I don't care at all,  
I can tell you a lil' white lie or two,  
say I will when I don't plan to call,  
I can give you a reason to wanna leave (wanna leave),  
Wanna find you somebody new (wooooohoooh),  
But to let you go baby girl hell no,  
It's something I just can't do

I will admit, that's up to it, I've made some mistakes (Girl I  
May just think)  
Just thinking of, those things you love, that I just can't take  
(that I just can't take)
