

I Won't Either

Ne-Yo

There's me,
Strong in what I believe but at times I try be correct politically
There's her,
Hard headed as can be, makes no apologies, the opposite of me

But when it comes to love I'm inspired by her middle finger to the world
And I love that she don't care how they see us
And because of her now I don't either
And I love that she will not let them beat us
And because of her now I won't either
Now I won't either

There's us,
Opposite enough to occasionally fuss
Over things we simply just disagree on
But there's us,
Overwhelming trust in the fact that we gon' be us
Come what may and no matter what
I learned that from her

But when it comes to love I'm inspired by her middle finger to the world
And I love that she don't care how they see us
(How they see us)
And because of her now I don't either
(Now I don't either)
And I love that she will not let them beat us
(Will not let them beat us)
And because of her now I won't either
(Now I won't either)
Now I won't either

She's shown me with, much stronger than
What they may say, the circumstance
I'm not ashamed to hold her hand
Let the cameras flash I don't give a damn
Oh whoa let the cameras flash I don't give a damn
Let the cameras flash I don't give a damn

And I love that she don't care how they see us
(And she don't care how ooh)
And because of her now I don't either
(Now I don't either, I don't either)
And I love that she will not let them beat us
(Let them beat us)
And because of her now I won't either
(And I won't either)
I won't either no, no
