

## Link Up

Ne-Yo

Tell me I'm your favorite tonight  
And we gon' do, we gon' do everything you like  
I take you anywhere you want, even let you drive  
And let's get lost in our own world, make it a surprise

I been giving into everything you mention  
Loving you is my only intention, oh  
Put in something know you, I know you been missing  
Girl it's my mission

If I link up with you  
Ooh ooh girl  
I might change your mind  
About what you think you like  
Baby girl if I link up with you  
Ooh ooh girl  
I might change your life  
Baby if I link up with you

Baby let me raise the bar  
Drinks on the gent cause I bought the bar  
Pink be the slips cause I bought the car  
Hop in the whip with me baby, I raise up the partition  
Now make a wish that's worth wishin  
Then come and get what you wishin for  
And you ain't gotta deal with them suckers no more

I been giving into everything you mention  
Loving you is my only intention, oh  
Put in something know you, I know you been missing  
Girl that's my mission

If I link up with you  
Ooh ooh girl  
I might change your mind  
About what you think you like  
Baby girl if I link up with you  
Ooh ooh girl  
I might change your life  
Baby if I link up with you
