

Push Up

Ne-Yo

Baby girl, push up all on me
'Cause I want you
And I need you
Baby girl, push up all on me
Spend some time now
Its been a while now
Baby girl, push up, push up, push up, push up, push up
Uh, yeah, hey
Push up, push up, push up, push up, push up
Yeah, ay

Baby, come around, its been a minute
You know I'm only in town for a minute
I know I ain't put it down in a minute
Baby, I ain't heard the sounds you make
When I'm in it, in a minute
Said, meet me at the studio
I'll be making hits
Baby, you already know
Soon as I'm done with this
Tell me where you wanna go
Hop in my whip
When you kiss my lips
I get so exited

Now I need yo body right now in the back seat
Let me hit it from the back
Ay, then we smoke a Back
Hit yo favorite spot, let me get you something to eat
Then I gotta take you back
Know I got a flight to catch, damn
Know I hate to leave
Don't shed a tear, baby, when I come back next week
For sure

Baby girl, push up all on me
'Cause I want you
And I need you
Baby girl, push up all on me
Spend some time now
Its been a while now
Baby girl, push up, push up, push up, push up, push up
Uh, yeah, hey
Push up, push up, push up, push up, push up
Ay
