

# Show Me

Ne-Yo

Baby, you know what you came here for  
Baby, you know what you came here for

Baby won't you... come in  
Come in and make yourself comfortable  
Baby them shoes, them clothes  
All those completely optional  
Totally optional

Baby we can, small talk  
Tell me 'bout yourself as I pour  
This drink, but I think  
We both know why you here  
Baby I know what you came for

You knew from the club, babygirl I know it  
I knew from the way that you chose to throw it  
Back at me like that  
Biting your bottom lip, eye contact  
I knew you was ready

So now that we're here can you show me more  
Of what you was doing to me on the floor?  
Grinding like you do  
But can you do it with me inside you?

Oh girl, can you show me?  
Can you be savage?  
Girl, can you show me?  
Give me passion  
Baby, if you really 'bout that action

You gotta show me  
Need you to focus  
Girl, can you show me?  
Give me passion  
Baby, is you really 'bout that action?

Turn around, let me see that  
Roll it slowly, put it on me, girl, be bad  
They don't know what we doin'  
They don't know where we at  
So you can be nasty, baby, 'cause Imma be that  
Just match my energy  
Girl, I guarantee  
I'll put my mouth on you  
If you put yours on me  
Go on n' get it, get it  
You can be messy wit it  
Imma work it like a job  
And baby I stand on business

You knew from the club, babygirl I know it  
I knew from the way that you chose to throw it  
Back at me like that  
Biting your bottom lip, eye contact  
I knew you was ready

So now that we're here can you show me more  
Of what you was doing to me on the floor?  
Grinding like you do  
But can you do it with me inside you?

Oh girl, can you show me?  
Can you be savage?  
Babygirl, can you show me?  
Give me passion  
Baby, if you really 'bout that action

You gotta show me  
Oh I need you to focus  
Girl, can you show me?  
Give me passion  
Baby, if you really 'bout that action

Baby, you know what you came here for  
Baby, you know what you came here for  
Baby, you ain't gotta front no more  
'Cause I know what you came here for
