

Slow Down

Ne-Yo

Busy, busy, busy
Story of our lives
You're always on your hustle
I'm always on my grind
But tonight, you're turning off that cell phone
And I'm gon turn off mine
The world won't give it to us
So we gon take some time

Can we (can we) slow down
I wanna take my time and enjoy you (enjoy you)
Hey, everything else can wait I want it right, right now
Can we (can we take tonight) slow down
Wanna take my time and enjoy you (enjoy you)
Hey, everything else can wait I want it right, right now

Always movin, shakin
Said we're always on the go
But tonight we're goin nowhere
But where passion lets us go
And there will be no interruption
No haste and no rush
The world won't let us have it
So we gon take tonight for us, hey oh

Can we (oh can we babe) slow down
I wanna take my time and enjoy you (enjoy you)
(Ooh, enjoy you baby) everything else can wait I want it right, right now (r
ight now, right now, right now)
Can we (ooh can we slow it down) slow down
Wanna take my time and enjoy you (enjoy you)
Everything else can wait I want it right, right now (said I want it right no
w, right now, right now now now now)

(Can we) go somewhere where they'll never find us
(Can we) leave everything and everyone behind us
(If only for tonight) girl let's act like we got nothing to do but do it rig
ht hey hey
(Can we) pretend that the phone isn't ringing
(Can we) hey and nothing but our bodies singing
In perfect harmony, let's do it alone, just you and me
Baby can we, yea yea

Can we (can we) slow down (slow down)
I wanna take my time and enjoy you (enjoy you)
Ooh everything else can wait I want it right, right now oh
Can we (can we take tonight) slow down
Wanna take my time and enjoy you (enjoy you)
Take my time and enjoy you babe
Hey, everything else can wait I want it right, right now

Baby can we slow it down
Slow it down
Can we slow it down, slow it down
Can we slow it down, slow it down oh oh
