

Try Me Out

Ne-Yo

Try me out, try me out
Hey
Say you need another lova
I can be the hole in the head
Shotgun a couple of times at the love sky
Now you have to be alone instead
And I get it
I once been twice shy
Make a fool of her once, but never 2 times

As a man with a number of flaws I won't lie
But that only pass me by
Now I don't wanna play like I know what you've been through
Because I don't
I don't wanna make you think I'll waste your time too
Because I won't
I don't want you to look at me like these other dudes
Because I'm not
Disappoint you girl, I won't do it
All I'm asking is a chance to prove it

Try me out
Baby give me a shot
Whatcha think that I am
Lemme show u I'm not
Maybe we'll be a little, maybe we'll be a lot
Maybe I am what you missin or maybe not

Try me out

Hmmm, I'm a man on a mission
Wanna be the kind of man you missin
Hmmm, I'm a man that pay's attention
When you talk no one even listen

Yeaaaaah, Cause I get it
Somebody stepped on your heart before
Somebody made you cry

As a man with a number of flaws, I won't lie
But that only pass me by
Now I don't wanna play like I know what you've been through
Because I don't
I don't wanna make you think I'll waste your time too
Because I won't
I don't want you to look at me like these other dudes
Because I'm not
Disappoint you girl, I won't do it
All I'm asking is a chance to prove it

Try me out
Baby give me a shot
Whatcha think that I am
Lemme show u I'm not
Maybe we'll be a little, maybe we'll be a lot
Maybe I am what you missin or maybe not

Try me out

Try me out

Baby give me a shot

Whatcha think that I am

Lemme show u I'm not

Maybe we'll be a little, maybe we'll be a lot

Maybe I am what you missin or Maybe not

Try me out (5x)
