

# Angels

Nea

I believe in angels  
When the snow is falling down on me  
I believe in angels  
Holy miracles are in my reach  
I believe in angels  
When my heart is heavy, I believe  
I believe in angels watching  
They'll be watching over me

Only days till Christmas  
Seems like everyone is in a rush  
But my only wish is  
To be here with you, just the two of us  
We can tune the world out  
When the noise is too loud  
I trust that everything is gonna be fine

I believe in angels  
When the snow is falling down on me  
I believe in angels  
Holy miracles are in my reach  
I believe in angels  
When my heart is heavy, I believe  
I believe in angels watching  
They'll be watching over me

Walking empty streets down  
Close to midnight, everyone's asleep  
The city's white and quiet now  
Just a silent voice inside of me  
Whispering a message  
Maybe it's a promise  
Saying that everything is gonna work out

I believe in angels  
When the snow is falling down on me  
I believe in angels  
Holy miracles are in my reach  
I believe in angels  
When my heart is heavy, I believe  
I believe in angels watching  
They'll be watching over me

Counting down to Christmas  
And the snow is falling  
I just have a feeling  
I believe in angels watching  
Angels watching over me
