

Cold Turkey

Nea

Mm
Yeah
Baby, where
Woo

Baby, where you goin'? You can't leave me
Leave me here to die
I need your lovin' every day
Cold turkey, kick me into space
I'm dreamin'
All the sadder dreams, keep me up at night
Baby, where you goin'?

Baby, where you goin'? You can't leave me
Leave me high and dry
The love we have can't be erased
Cold turkey, kick me into space
I'm dreamin'
All the sadder dreams, keep me up at night
Baby, where you goin'?

Ooh, your lovin' got a hold on me
I think I'm goin' insane
Somebody better call the police
Restless night, I'll be up until I get a kiss
Restless night, I'ma kill you if you leave
Restless night, I'ma kill you if you leave
Restless night, I'ma kill you if you leave
Restless night, I'ma kill you if you leave
Restless night, I'ma kill you if you leave
So stay right here with me

I've got a cabin in the woods
I'm gonna take you there with me
Make sure you never ever leave
Make sure you this lovin' is for keeps
Oh, how I wish that you could see
How happy we could be for an eternity

Ooh, your lovin' got a hold on me
I think I'm goin' insane
Somebody better call the police
Restless night, I'll be up until I get a kiss
Restless night, I'ma kill you if you leave
Restless night, I'ma kill you if you leave
Restless night, I'ma kill you if you leave
Restless night, I'ma kill you if you leave
Restless night, I'ma kill you if you leave
So stay right here with me
Restless night, I'ma kill you if you leave
Restless night, I'ma kill you if you leave
Restless night, I'ma kill you if you leave
Restless night, I'ma kill you if you leave
So stay right here with me
Restless night, I'ma kill you if you leave
Restless night, I'ma kill you if you leave
Restless night, I'ma kill you if you leave, babe

Restless night, I'ma kill you if you leave, babe
Restless night, I'ma kill you if you leave, babe
