

# The Creation

Neal Morse

[I. One Mind]

Long before these brave new modern times  
The first madman received the breath of life  
He and woman walked this wonderland  
Talking daily with the great I am  
It had begun....

We were of one mind  
Fellowship divine  
All creation came  
We lived to praise his name  
And we walked his way  
In the cool of the day

All was made was one big everything  
The Father gave the son life's golden ring  
And all was rosy in their company  
All creation in full diversity  
Was only one...

[Chorus]

In the evening breezes they went walking towards the sun  
God and his creations had a time when they were one  
And they lived together and no other will was done

[II. In A Perfect Light]

Hand and hand and face to face they tarried  
Living in one universal mind  
In his garden home (day or night)  
Man was not alone (in a perfect light)

Like Clark Kent to Superman he's leaping  
The pres, the V.I.P. of the grand design  
Sin was never known (day or night)  
In their garden home (in a perfect light)

And he let him name the things that are  
And asked his opinion  
Just like the agent to the star  
He gave him dominion  
And he was made into two  
And he gave them a job to do  
And they were to care for every part  
And love was the union

[III. Where Are You?]

And at the designated time  
At the usual venue  
He went calling in the night  
Children where are you?  
Children where are you?

Why?

Why are you hiding?  
You were ashamed  
You fled my eyes  
I gave you life  
And all that I wanted  
Was just one thing  
But you chose a lie

[IV. Reaching From The Heart]

We were of one mind  
Once upon a time  
But we turned away  
We've got to find a way  
To get back again  
To where it all began  
We were torn apart  
Now we're reaching from the heart  
Make us one we pray  
In the cool of the day  
Of the day

We can walk his way...
