

## Pit

## Necro

Start a pit!  
Start a pit!

I'm a dragon spitting out magma  
Pop bangers, leave you like chopped angus  
Hold an axe like Genghis Gun, I'm like a young Genghis  
Khan  
Like a gang of ex-cons that hang up murder rates  
Murder's great, snapping, clapping you up  
Chew up flesh like werewolves yapping  
Victims, who's up to bat? Smack em with a bat  
Hack em into pieces, Jesus  
Christ motherfuckers are pussy  
Petrified, mortified, testified you all die  
I'm the sort of guy that stays fortified  
With a vest and a .45 who's cauterized  
? the rise rebellion, one million felons yelling,  
"Necro, tell em!"  
To hell with them, fuck politics  
Buck at the cops, they can suck the cock

Start a pit! Do it! Now! Yeah!

Here's a shank and a snuff, stop acting tough  
I don't like you, you're not gangster enough  
I'm at peace with reality, I got a blood feast  
mentality  
You're into bestiality, you fuck dogs and you suck logs  
You're into buttplugs, you don't need drugs  
So nice I'll buck you up with a flare gun  
Fuck you up in a fair one, stomp you with Air Ones  
You get carried away, you literally get carried away on  
a stretcher pitifully  
My bad your honour, I know I fucked up  
But killing a cop is a badge of honour  
You're a queer in tights, dying like a deer in  
headlights  
Strict with the nine like dead mice  
Finally put your brain to sleep painfully  
Kill you and laugh at you simultaneously

Vintage, you're cutting edge in one package  
Gun-clappers backwards like a sexually active  
attractive nun with a strap-on  
Crucifix dildo haunting the chapel  
People you don't want to street brawl or you'll bleed  
All over the place like I hit your nose with a speed  
ball  
Like a psycho in jail with the brain of Michael Dell  
Hit your brain with a rifle shell  
Shit like an ex-lax pill, crack your skull  
I'll flip out like Axl Rose on Paxil  
Don't need swords, direct sex sells to excel my career,  
it's no career loss  
Ride like a bicycle, smacked you up in high school  
Like an icicle I'm ice cold  
Foursomes in Toronto, orgies in Montreal, pervert,

aren't we all?

[Chorus]
