

Pseudopathological Vivisection

Necrophagist

Pathology - fascinating me
Flesh obsessed - sick deviancy
Stiffened corpses I do not deal with
Living body bisection I prefer
A sick deviancy, deviant pathology
Slicing the body like in an autopsy
Pulsating blood is spurting up to me
Liver, rectum an its cysts removed
Shoving fingers into the bowels
I saw into the bleeding chest
Remaining organs to discharge
Fresh blood drips down the immitated mortuary slab...
...Pseudopathology...
