

Devil's Spawn Attack

Necrophobic

The mouth of hell has spoken
To spread infernal hate
A storm of death from beyond
Will rage on through the gates

The devil shall arise
As the flames reach the skies
Now vengeance brings me back
Devil's spawn attack

For I am spawned by the devil
And I will strike upon the world
When the past lies dead forgotten
I will live by Satan's sword

The devil shall arise
As the flames reach the skies
Now vengeance brings me back
Devil's spawn attack

Storm
Through the gates

Now as the gates are opened
The Antichrist will take revenge
As the final spell is broken
And the flames rise high once again

The devil shall arise
As the flames reach the skies
Now vengeance brings me back
Devil's spawn attack
