

# Eye Of The Storm

Necrophobic

I am the warrior  
I am bred of sin  
I am the wolf within

I am the blizzard son  
My enemies I tear  
I am their utter fear

I am the berserker  
In the forest I grew  
Changed my conscious into two

I float between the worlds  
I gain might through my pains  
In the north I am the ice  
In the south I am but flames  
Harmageddon, Ragnar k  
I'm the eye of the storm  
Until nothing remains

Show me the sacred powers of Thurs  
Show me the path to my cosmic rebirth  
Give me a vision, give me a sign  
There in the flames my kingdom I'll find

I search for the balance of fire and ice  
From Nifel to Muspell with longing in eyes  
I search for the wisdom the one-eyed once gained  
Metamorphosis obtained

I am the raging wolf  
Psychedelic ecstasy  
I change and leave my sanity

I am the elgr warrior  
Myst re Lycanthropique  
I set the primal in me free

I float between the worlds  
I gain might through my pains  
In the north I am the ice  
In the south I am but flames  
Harmageddon, Ragnar k  
I'm the eye of the storm  
Until nothing remains
