Eye Of The Storm

Necrophobic

I am the warrior I am bred of sin I am the wolf within

I am the blizzard son My enemies I tear I am their utter fear

I am the berserker In the forest I grew Changed my conscious into two

I float between the worlds I gain might through my pains In the north I am the ice In the south I am but flames Harmageddon, Ragnarćk I'm the eye of the storm Until nothing remains

Show me the sacred powers of Thurs Show me the path to my cosmic rebirth Give me a vision, give me a sign There in the flames my kingdom I'll find

I search for the balance of fire and ice From Nifel to Muspell with longing in eyes I search for the wisdom the one-eyed once gained Metamorphosis obtained

I am the raging wolf Psychedelic ecstasy I change and leave my sanity

I am the elgr warrior Myst"re Lycanthropique I set the primal in me free

I float between the worlds I gain might through my pains In the north I am the ice In the south I am but flames Harmageddon, Ragnarćk I'm the eye of the storm Until nothing remains
