

Long Ride

Ned LeDoux

It's an uphill battle day to day
So very little seems to go our way
Life is brittle, but we won't break

If we just lean in, our backs to the wind side-by-side
Just me and you, pushing on through every downhill slide
Love keeps us strong, forever holding on
For the long ride

We try like the devil, to keep the pace
The road ain't level and we lose our place
Through the struggle, we still find a way

If we just lean in, our backs to the wind side-by-side
Just me and you, pushing on through every downhill slide
Love keeps us strong, forever holding on
For the long ride

If we just lean in, our backs to the wind side-by-side
Just me and you, pushing on through every downhill slide
Love keeps us strong, forever holding on
For the long ride

With a heavy heart
Down deep in our chest
Crack a smile as we do our best
The weight of the world
Has nothing on us
