

Old Fashioned

Ned LeDoux

Still favor the same ol' hat
And these worn out pair of boots
Sticking with tradition
Proud of my roots
Raised up on common sense
Grandad showed me the way
Staying true to my word
Some things will never change

Call me old fashioned, that's fair to say
That's who I am, a little set in my ways
Tried the brand new, but it just ain't the same
So call me old fashioned, I'm proud of that name

Customs of long ago
Make up my lifestyle
Sort of talk a little slow
But I'll always greet you with a smile
I'm open to new ideas
But the old ways suit me fine
A bad habit is hard to break
What you see, is still all mine

Call me old fashioned, that's fair to say
That's who I am, a little set in my ways
Tried the brand new, but it just ain't the same
So call me old fashioned, I'm proud of that name

Don't mean to say that I didn't try
Lord knows I gave it a shot
Don't stress on the little things
Trust in a hand shake
Know who you are, and who you're not

Every day gets harder
To tell what's wrong or right
Most things in shades of gray
Nothing's black or white
Sometimes it's easy
Just to blend in with the crowd
But I've come to understand
It's best just to hold your ground

Call me old fashioned, that's fair to say
That's who I am, a little set in my ways
Tried the brand new, but it just ain't the same
So call me old fashioned, I'm proud of that name
