

One Hand In The Riggin'

Ned LeDoux

I got bucked off down in Prescott
And I've been driving half the night
Down this long and lonesome highway
Seems there ain't no end in sight
I didn't make the short go
But if I make it to Cheyenne
There'll be another bronc to ride
And I just might have a chance if I keep

One hand in the riggin'
One hand on the wheel
No matter how far down the road I go
There's always one more rodeo
She'd like for me to settle down
As long as I'm still livin'
I'll keep one hand on the wheel
And one hand in the riggin'

What it is that keeps me going
Sometimes I just don't know
For all the years that I've spent riding
I don't have much to show
And while she waits there alone
Hoping I'll come back to stay
But there always one more mile to drive
Down another lonely highway I keep

One hand in the riggin'
One hand on the wheel
No matter how far down the road I go
There's always one more rodeo
She'd like for me to settle down
As long as I'm still livin'
I'll keep one hand on the wheel
And one hand in the riggin'

One hand in the riggin'
One hand on the wheel
No matter how far down the road I go
There's always one more rodeo
She'd like for me to settle down
As long as I'm still livin'
I'll keep one hand on the wheel
And one hand in the riggin'

I'll keep one hand on the wheel, and One Hand In The Riggin'
