

# Open Road

Ned LeDoux

Never was good at standing still  
Always on the move  
Sittin' on the front porch killing time  
Ain't for ramblin' boots  
I need to see what's over the hill  
There's places I've never been  
The greatest sense of freedom  
Is on that road that never ends

So put me back on that highway  
Out on the open road  
I ain't chasin' no destination  
All I wanna do is go  
I hear a whisper on the wind  
Calling from the great unknown  
I've got a dream and the gasoline  
And this open road

Every town I find has a story inside  
They got something to say  
It ain't about gettin' to the end of the trail  
It's just life along the way  
Secrets of the wonder and how  
And knowing where I've been  
Discoverin' what's around the next turn  
The adventure starts again

So put me back on that highway  
Out on the open road  
I ain't chasin' no destination  
All I wanna do is go  
I hear a whisper on the wind  
Calling from the great unknown  
I've got the dream and the gasoline  
And this open road

How ya gonna learn what you don't know now  
How ya gonna find what you need  
If ya don't go looking for the heart of the matter  
You can't unlock the mystery, Yeah

So put me back on that highway  
Out on the open road  
I ain't chasin' no destination  
All I wanna do is go  
I hear a whisper on the wind  
Calling from the great unknown  
I've got the dream and the gasoline  
And this open road  
This open road
