

Prostrate

Ned's Atomic Dustbin

You can't hold it back
I know what I need
It's control that I lack
I can't hold it back
Just to tease
You know you've got me

I took the fall
Now you take the lead
Prostrate, here I wait
But it won't go away
I took the fall
You take the lead

Hate to prostrate
But you'll have to wait
On your knees

I told you that
I know what I want
It's ahold of the cat's eye
Told you that was me
Just to tease

I've took the fall
Now you take the lead
You'd hate to prostrate
But you'll have to refrain
I took the fall
You take the lead

I took the fall
Now you take the lead
Prostrate, here I wait
But it won't go away
I took the fall
Now you take the lead

I know what I want
It's control that I lack
I know what I want
It's ahold of the cat's
You can't hold it back
Just to please
