

Darling

Needtobreathe

Darling, won't you talk with me for a little while?
We ain't got nowhere to be, oh and I've come so many miles
Darlin', won't you talk with me for a little while?
Or at least until the baby cries or we both fall asleep

Oh I've been gone for so long
I'm tired of seeing these things on my own
I don't wanna do this alone
I don't need New York or Paris or Rome
O don't wanna be on these screens
I don't care about all these places or things
I just wanna be there with you
The only thing that carries me through

Darling, won't you talk to me for a little while?
We ain't got nowhere to be, oh and I've come so many miles
Darlin', won't you talk to me for a little while?
Or at least until the baby cries or we both fall asleep

Oh and I know it's hard to be home
Tryin' to take care of a house on your own
I know that I'm supposed to be gone
Well maybe that's true, but it feels like it's wrong
I spend all these great nights alone
With strangers and vagrants that I'll never know
I just wanna be there with you
The only one that carries me through

Darling, won't you talk to me for a little while?
We ain't got nowhere to be, oh and I've come so many miles
Darlin', won't you talk to me for a little while?
Or at least until the baby cries or we both fall asleep

Darling, won't you talk to me for a little while?
We ain't got nowhere to be, oh and I've come so many miles
Darlin', won't you talk to me for a little while?
Or at least until the baby cries or we both fall asleep
