

Disaster Road

Needtobreathe

Call out to all you can
I'll never look back
I am a man whose soul
Got caught in the trap
With darkness approaching
It's not my heart that wants to go
Woah

So excuse me darlin' while my heart explodes
I'm in the cage I've chosen, because it feels like home
I should've seen this coming a million miles ago
I've been badly wronged down disaster road, woah

Sing me to me your sweetest song
It could be my last
My fate it myself alone
And I'm heading there fast
With darkness approaching
It's not my heart that wants to go
Woah

So excuse me darlin' while my heart explodes
And the prize is empty but my eyes have
So excuse me darlin' while my heart explodes
I spend my whole life paving this disaster road

So excuse me darlin' while my heart explodes
I'm in the cage I've chosen, because it feels like home
I should've seen this coming a million miles ago
I've been badly wronged down disaster road, woah
