

# I Wanna Remember

Needtobreathe

This feels like  
One of those moments moving by so fast  
You wanna do something just to make it last  
You wanna do something to remember

Breathe it in  
The feel of your body on my fingertips  
The moonlight on fire and the clothes we're in  
We gotta do something to remember  
We don't wanna forget it

I wanna memorize you, wanna stay here forever  
'Cause I-I-I, I-I-I  
I take a picture in my mind so we're always together  
'Cause I-I-I, I-I-I, I wanna remember

I wanna remember  
(Ooh-ooh, ooh-ooh, ooh-ooh-ooh-ooh)

The night is clear  
All of the stars out in the atmosphere  
Wishing that they were you and me right here  
They're showing off for us, I don't wanna forget it

I wanna memorize you, wanna stay here forever  
'Cause I-I-I, I-I-I  
I take a picture in my mind so we're always together  
'Cause I-I-I, I-I-I, I wanna remember

Ooh-ooh, ooh-ooh, ooh-ooh-ooh-ooh

I don't know how  
Every second gets better  
I wanna be here now  
I want to remember

I wanna memorize you, wanna stay here forever  
'Cause I-I-I, yeah, I-I-I  
I take a picture in my mind so we're always together  
'Cause I-I-I, I-I-I, I wanna remember

Oh, I wanna remember, yeah  
(Ooh-ooh, ooh-ooh, ooh-ooh-ooh-ooh)

I want to remember  
I wanna remember (I wanna remember)  
I want to remember  
I wanna remember
