

Lifeboat

Needtobreathe

Take a rest from feeling like you're dead
Happiness is not just left for fools
Breathin', it's getting harder every day
Finding you're gonna make the same mistake

Tell me when you're over him
Come back now
Help me fight the loneliness
You're the only way out

Show yourself, it's getting harder every day
Fine alone, you're gonna make it if you stay

Tell me when you're over him
You come back now
Help me fight the loneliness
You're my only way, out
(You're my only way out)

Love is an ocean
Ooh, and you can't swim alone
No, I don't float
You're my lifeboat

Love is an ocean
Ooh, and you can't swim alone
No, I don't float
You're my lifeboat
