

Make Me

Needtobreathe

You guide my steps
You set my sail
You are the reason when I prevail
And you are my song
You are my scene
You are the you
Who is in me

Ooh, you make me
Ooh, you make me

You are my stage
I stand upon
You are my fortress
Where I belong
With all I am
It's not enough
I'm incomplete
Without your touch

Brokenness, come fall on me now
Brokenness, come fall on me now
Brokenness, come fall on me now
Brokenness, come fall on me now
