

Next Time

Needtobreathe

I'll make it better, the next time around

It's all my fault, I've been wrong, I've been wondering
If you were right, and I was wrong, I've been suffering
I'm sorry if I've been letting you down

I'll make it up to you, down on my knees
Lay it down at your feet
I'll make it up to you, down on my knees
Lay it down at your feet

And I, I, I, I'll...

And I'll make it better the next time around

It's all my fault, I've been wrong, I've been wondering
If you were right, and I was wrong, I've been suffering
I'm sorry if I've been letting you down

I'll make it up to you, down on my knees
Lay it down at your feet
I'll make it up to you, down on my knees
Lay it down at your feet

And I, I, I, I'll...

I'll make it up to you, down on my knees
Lay it down at your feet
I'll make it up to you, down on my knees
Lay it down at your feet

Oh, I will make it up to you, down on my knees
Lay it down at your feet
I'll make it up to you, down on my knees
Lay it down at your feet

Are you strong enough, are you tough enough
Do you love enough, to make it up to me
