You know it's Big Chang Chang, make these hoes go insane)
(Hear ye, hear ye)

You look too good to be single
Be around the trap and know the lingo
All these niggas 'round, what's stoppin' 'em?
I just wanna know what's the problem?
Probably got a body count (What's your body count? Know your body count)
Baby, what's your body count? (What's your body count? Know your body count)
I know you got a

She say she only fucked three
I took that and times that by fifteen
Don't be scared, do your thing if you a freak
I'm in the club with the pants full of dick she could eat
She say her girlfriend fucked her with a strap-on
I'm paranoid, I can't never leave my gat home
She got more bodies than a morgue
They say when she get some molly in her body, she a whore
I don't give a fuck
If you thick, bitch, touch your toes
And call when your niggas and kids is gone
Slam dunkin' with my arm in the rim, I'm dope
And she swallow every time I cum for sure
Even though you got a body count
I just wanna see your body bounce
Throw that ass 'round
My last bitch white, the new bitch brown
I don't discriminate with pussy, I just knock it down

You look too good to be single
Be around the trap and know the lingo
All these niggas 'round, what's stoppin' 'em?
I just wanna know what's the problem?

She intercept the pack off niggas callin' audibles
Mmh, she lick the sack and hit the head too
I wanna run it back, 'cause baby girl, that head a damn fool (Hear ye, hear ye)
Chang Chang keep a fan, cool
Whenever you get hot and bothered, I fan you
They say she got bodies, well I'm like, "I got standards"
And if she rode dick 'cause her pussy can't stand it
Drumline in that pussy, I'ma one-man band it
I met a Mariah and I gave her cannon
Work, Meathead, she wanna eat the dick challenge
She got a nigga like, "Yo, I'm in that pussy Chris Brown-in'"
I'ma blow her back in, hittin' it from the back-end
So much dick, I got enough to fuck her fat friend
Another body, count it up, the results in
No STDs for me, she's high voltage
