Time after time, I ask myself who do I do it for?
It's for the doctor that woke me when I was stillborn
For all of my city niggas, I hope that they feel more
I'm still signed with Sick Wid It, I pray that they don't find a cure
Conversations with 40, not talkin' OVO
I freestyle for Yeezy, I swear, I spill my soul
My son say a full sentence, baby boy grown
He and a handful of niggas that I'ma move for
I pray to God, he moved a mountain and I started shoutin'
Praised dance in my prayers and said I took chances
Remain solid, I didn't crumble, I'm still standin'
Kept faith, didn't sold my soul, they can never brand me
I'm in this shit, I'm writin' hits 'til I win a Grammy
Wonder who I move for? I'm pointin' at my family
Schemes turned dreams, now dreams are reality
Now can't nobody challenge me, I know the angels proud of me

Run up checks with the best, I don't respect when my toolie
And I'm light on my feet, you would barely know that I'm movin'
Aye, look, tell 'em move over
I wasn't talkin to you lil' baby, so what you move for?
15, had that grown bitch buyin' my school clothes
I can't hang with niggas my age, feel like I'm too old
Too cold, might freeze your hand if you touch me
We rough and rugged, you feeling lucky? This shit a get ugly
Pussy, bark like a dog bite like a puppy
See em lookin', but if he approach me you know I'm bussin'

Shit, mamma said I'm smellin' like a big tree
Gotta see my P-O, hope he don't try to piss me
Fuck 'em mane, don't even try to convince me
Rollin' weed I got handlebars like a ten speed
