## **God Likes Your Style**

## **Negative**

It's like a sunbeam
When it's coming and blind me
Don't be afraid now
All you need is to

Pray your God God likes your style

Take your chance now
And save yourself
You better believe in
Before it's too late
The time is gone
Have to be afraid
The day is done
and all you need is to

Pray your God God likes your style Pray your God God likes your style
