Still Alive

Negative

These are those days, when I can get no sleep
I'm so tired I'd like to fall into sleep
I fall in my bed
But still I'm awake

These questions in my mind are so much bigger than life
But my life is short and I have to leave them behind
I have to try to forget
That I am still in my bed

In my deepest fears I'm losing you
Even if somebody tried to stop my heart
I'm still alive I will never give up

Just turn off the lights
Don't wanna see me die
I look like I'm dead
But when you look at me
I am still alive

Just open your eyes
Don't wanna see me cry
I'm right here where you want me to be
Fighting with myself

All I need to feel is your breath on my skin
This endless longing between you and me
We can't give up now
We're gonna make it somehow

In my sweetest dreams I'm with you
Even if somebody tried to stop my heart
I'm still alive I will never give up

Just turn off the lights
Don't wanna see me die
I look like I'm dead
But when you look at me
I am still alive

Just open your eyes
Don't wanna see me cry
I'm right here where you want me to be
fighting with myself, with myself

Just turn off the lights
Don't wanna see me die
I look like I'm dead
But when you look at me
I am still alive

Won't you open your eyes
Don't wanna see me cry
I'm right here where you want me to be
fighting with myself
I'm right here where you want me to be
fighting with myself

I'm right here where you want me to be
fighting with myself, with myself
Ooh, I look like I'm dead
but when you look at me
I'm still alive
