

Until You Are Mine

Negative

Afraid of
All the fears i feel inside
Hard to come out
And try to leave this world behind

Should i be afraid of
When all the beauty seems so cruel
Always somehow
I turn all my fears on you

Sometimes i'm running out my fears
I throw them high until you're mine
You give me heart to carry on
It gives me hope it makes me strong

Afraid of
All your fears are bleeding through
Deep insde my
My heart i will kiss you

Until you're mine
This waking hour's killing me
Always somehow
You finally turn your fears on me

On meee... regrace meeee...

Sometimes i'm running out my fears
I throw them high until you're mine
You give me heart to carry on
It gives me hope it makes me strong

Wooow...

Sometimes i'm running out my fears (running out my fears)
I throw them high until you're mine (until your mine)
You give me heart to carry on (carry on)
It gives me hope it makes me strong

Until your mine, until your mine
Right up high

You give me heart to carry on
It gives me hope it makes me strong
