

Hey Louise

Neil Diamond

Hey, my Louise,
If I take you home,
Will you make me plead?
My sweet amour
If I come to close, will you close the door?

Oh ma cherie, do you know my name?
I remember yours
And I know what you need
What you need my Louise

Hey my Louise,
I can stand the heat,
But don't let me freeze
Merci beaucoup, it's a natural thing
When it's me and you

Oh ma cherie, do you know my name?
I remember yours
And I know what you need
What you need my Louise

Oh ma cherie, do you know my name?
I remember yours
And I know what you need
What you need my Louise
Need, what you need my Louise
What you need my Louise
