## **If There Were No Dreams**

## **Neil Diamond**

If there were no dreams And there were no dreamers Then how could I dream you up? You're still a mystery to me

The way that we love The life that we're leading I don't want to give you up Whatever I have to do, I'll do

Put a mountain there And I'll tear it down If it's much too high Then, I'll go around I won't stop for anyone or anything And I'd love you even If there were no dreams

If there were no dreams How could we be lovers? And how could I need you so? The reason's clear to even me

I'll know that it's right You don't need to wonder If you're up against that wall I'm gonna be up against it too

If a mountains there, We can tear it down If it's much too high Then we'll go around We won't stop for anyone or anything

We'd be lovers even If there were no dreams Yes we would, Lovers, even if there were no dreams
