

# Long Gone

Neil Diamond

Say lady  
Oh, you got to tell me  
What it was came over you  
You ain't the devil,  
But you might as well be  
For all the changes  
That you put me through

Long Gone, baby is what I'm gonna be  
Long Gone, pack up and save my soul  
Hang on to whatever's left of me  
Find me walkin' the Long Gone road

Want someone to believe in  
Need someone that wants me, too  
Don't want no lies and deceivin'  
Girl, that's all I get from you

Long Gone, baby is what I'm gonna be  
Long Gone, pack up and save my soul  
Hang on to whatever's left of me  
Find me walkin' the Long Gone road

Long Gone, baby is what I'm gonna be  
Long Gone, pack up and save my soul  
Hang on to whatever's left of me  
Find me walkin' the Long Gone road

Long Gone, baby is what I'm gonna be  
Long Gone, pack up and save my soul  
Hang on to whatever's left of me  
Find me walkin' the Long Gone road
