

## Practically Newborn

Neil Diamond

Runnin', hidin'  
Runnin', hidin' myself  
From a bad and sad kinda hurt  
It ain't gonna work, oh no

Alibi'n  
I've been tryin' to make believe  
I could leave love alone  
Heart made of stone

Take love, why not  
Give all the love that I got  
But I never could before  
You opened up, my door

Practically newborn,  
Least that's the way I feel  
Practically newborn,  
I got me somethin' real  
Anything you want,  
Baby, you know I'll do  
Yeah  
Practically newborn,  
Practically born for you

Me, I found me  
Me, I found me a road  
Take me out of my doubt and my fears  
I said goodbye to tears  
Stay around me, baby  
Stay around me when I can't forget  
What I let get me down  
Look what I've found

Take love, why not  
Give all the love that I got  
I never could  
Before you opened up my door

Practically newborn,  
Least that's the way I feel  
Practically newborn,  
I got me somethin' real  
Anything you want,  
Baby, you know I'll do  
Yeah  
Practically newborn,  
Practically born for you.

Practically newborn,  
Least that's the way I feel  
Practically newborn,  
I got me somethin' real  
Anything you want,  
Baby, you know I'll do  
Yeah  
Practically newborn,

Practically born for you
