

Can You Hear Us

Neil Finn

We're right where we belong
Where mountains meet the ocean
Beneath the Southern Cross
A symbol of our devotion

Can you hear us
We'll never let go
Can you hear us
And carry our hopes
Can you hear us
We'll never let go

The fire is coming back
There's magic in your touch
Silver fern on black
Somehow it means so much

The time is running down
The shadows getting longer
But don't you hang your head
'Cos brother it's not over

Can you hear us
We'll never let go
Can you hear us
And carry our hopes
Can you hear us
We'll never let go

And the final moment in your hands
You feel the power from the stands
And it's like thunder coming to fill the silence

Can you hear us
We'll never let go
Can you hear us
And carry our hopes
Can you hear us
We'll never let go

Can you hear us
Aotearoa
Hear us
Aotearoa
