

# Find Your Way Back Home

Neil Finn

The memory is hazy  
Somehow I never got to say farewell  
To you  
It's been a long, lonely path  
For you

I was keepin' all my thoughts inside  
When I saw you on the street tonight  
Oh, my  
Well, it's like starin' at an empty page  
When the story's gonna have to be made

Hopin' that you find your way  
I'm hopin' that you find your way back  
Hopin' that you find your way back home  
In time  
In your own time

We are related  
I could be the one that could clear a path  
For you (could clear a path)  
Instead of the one that would look away  
From you

Have a mind if you care  
Love will always find you there  
Comin' in on a wing and a prayer

Hopin' that you find your way  
I'm hopin' that you find your way back  
Hopin' that you find your way back home  
In time (in time)  
Yeah, I'm helpin' you to find your way  
Knowin' that you'll get there one day  
Helpin' you to find your way back home  
In your own time  
In your own time

Someone I knew  
I'm sendin' out a smile to you

Helpin' you to find your way  
Helpin' you to find your way back home  
Helpin' you to find your way  
You're gonna find your way back home

Sooner or later (find your way)  
We are the ones that could clear a path  
Come on home, baby (find your way)  
One of these days it'll come to pass  
Sooner or later (find your way)  
No, you're gonna find your way back home  
Knowin' you're gonna find your way  
Sooner or later
