

Express Yourself

Neil Sedaka

Have you cried, and had more than your share of lonely times
When your mind got so lost and confused that you tried to hide
it away
And you woke up one day and finally found
That all your worldly troubles could never hold you down.

Don't be afraid, express yourself,
Speak up and say what's on your mind.
Come on my love and you will find
You're part of the world, express yourself.
Baby, baby don't worry if you're right or if you're wrong,
You know that it's fun just having you along.

Have you heard the freedom song in a mornin' sky
Did you try to capture it all, could you find the words that co
uld say
What you feel when you're feelin' so good,
When all your worldly troubles begin to fade away.

Don't be afraid, express yourself,
Speak up and say what's on your mind.
Come on my love and you will find
You're part of the world, express yourself.
Baby, baby don't worry if you're right or if you're wrong,
It's a good thing, express yourself,
Such a good thing, express yourself.
Express yourself, la la la la la la la la la, ooh

Baby, baby don't worry if you're right or if you're wrong,
It's a good thing, such a good thing,
Express yourself, la la la la la la la la la,
La la la la la la la la...
