

## Canerican

Neil Young

I am American, American is what I am  
I cast my vote and now I got my man  
Out on the range, I see the changes coming to this country  
I am American, American is what I am

(American)

I am American, American is what I am  
I was born in Canada, came south to join a band  
Got caught up in the big time, traveling through the land  
Up on the stage, I see the changes coming to this country  
I am Canerican, Canerican is what I am

I am all colors, all colors is what I am  
Stand beside my brother for freedom in this land  
Out on the range, I see the changes comin' to this country  
I am all colors, all colors is what I am

(American)

I am American, American is what I am
