Coastline

Neil Young

Down on the coastline, Highway One People headin' out for the sun That's where I found you, long time ago.

You're my angel, you're my queen You're my best friends in between We don't back down from no trouble We do get up in the mornin'.

Oooweee, baby, what a night
That old moon sure is shinin' bright
We'll be dancin' 'til the mornin' comes.

High on the mountain top above the clouds No wonder we get a little loud We don't back down from no trouble We do get up in the mornin'.
