Don't Forget Love

Neil Young

Don't forget love When you're angry and you're lashing out, don't forget love You don't know what you're talking about, don't forget love When the wind blows through the crime scene and the TV man starts talking fa st, don't forget love When you got no one you can confide in, don't forget love In every story there's a secret hiding, don't forget love When you're taking when you could be giving When you're dying and you could be living, don't forget love When you're waking up with a frown And the world is bringing you down Don't forget love Don't forget love Don't forget love Love will bring you back around Put your feet right on the ground Don't forget love Don't forget love Don't forget love When the storm comes and the lights go out, don't forget love When the rains give way to sunshine, don't forget love There's a secret in every story, in the ways that we remember love Don't forget love

Don't	forget	love
Don't	forget	love
Don't	forget	love
