

# Eternity

Neil Young

Woke up this morning in a house of love  
The birds were singing in the sky above  
The dogs were barking and the deer were free  
And we were living in a house of love

Woke up this morning in a house of love  
Oh, fortunately  
I hope we're living in a house of love  
For eternity

Eternity  
Eternity  
Eternity  
Eternity

Then we were ridin' in my old car  
Along the coast and under the stars  
Your hair was blowing and the top was down  
And we were heading to my hometown

We kept rolling 'cause you can't go back  
Got stopped at the railroad track  
The train of love was rolling by  
I reached over and touched you hand

Waitin' on the train of love  
Train of love  
Train of love  
Eternity
