

Silver Eagle

Neil Young

Silver eagle, keep rollin' on
Cross this country, still young and strong
Big green valleys and shining seas
Silver eagle, you're part of me

Traveled miles now on these old roads
Some are new, as time explodes
Full of stories, both yours and mine
Silver eagle, we're rollin' through time

Many drivers behind your wheel
Many songs now, for us to feel
As we roll on through this country
Silver eagle, you're part of me

On those old trailways
We used to see
And down those new roads
For you and me
I'll keep on singin' as we roll on
Silver eagle, you're my new song

We hit big traffic, we saw big things
As we remember, and the roadway sings
You carried my friends, you carried me
Silver eagle, I'm feelin' free
I'm feelin' free
I'm feelin' free
Silver eagle, you're part of me
