

Right Now

Nekrogoblikon

Well this is life
And we're livin' it
Right now
Well this is life
And we're livin' it
Right now
Well this is life
And we're livin' it
Right now
Well this is life
And we're livin' it
Right now

Hey! Today!
It's just another day
Feels the same to me
But you know what they say
Gotta make the money
Gotta keep on living
Gotta this that
Gotta gotta gotta
I'm like fuck that
Did you ever think
To ask yourself
Did you ever think
Not to trust somebody else
When will life begin
But it already did
It's life
And we're livin' it
Right now

What you got to say?
Have you anything to say?
I'm in second person
Is there any way that this could worsen?

Here we go again
I have the honor
And the privilege
To hear your thoughts
Serenade me
With your true beliefs
I cannot believe
Just how lucky I am

Well this is life
And we're livin' it...
Right now

What you gonna do
What you gonna say

What you gonna feel
When you start your life
But you're maybe
Half way through or more
It's a closing door
And the poor stay poor
Woo!
It's time to die when it's time to die
And you pretend to know the reason why
Well you're transparent
And you're ever so garish
What you got to say?
Have you anything to say?
I'm in second person
Is there any way that this could worsen?

Here we go again
I have the honor
And the privilege
To hear your thoughts
Serenade me
With your true beliefs
I cannot believe
Just how lucky I am
To hear your thoughts
And see your face
To understand
Your take on the human race
What a wonderful person you are
I wish you'd never go away

Well this is life
And we're livin' it
Right now
Well this is life
And we're livin' it
Right now
Well this is life
And we're livin' it
Right now
Well this is life
And we're livin' it
Right now

I never saw
I never knew
I never felt
The way you do
I never saw
I never knew
I never felt
The way you do

What did I know?
And then to grow
Life goes on and on and on
So tell me what did I do wrong
Did I do wrong

I never saw
I never knew
I never felt
The way you do
I never saw
I never knew
I never felt
The way you do

This is death and we're dyin' right now
This is death and we're dyin' right now
This is death and we're dyin' right now
This is death and we're dyin' right now

This is death and we're dyin' right now
This is death and we're dyin' right now
This is death and we're dyin' right now
This is death and we're dyin' right now
