Graveyard in Your Memory

Nekromantix

i hear you laughing, laughing behind my back
but i'm following you – yeah, i'm following your track
a long long time ago you broke my heart and let me down
i searched for love with you, but bitterness and hate was what
i found

'cause i'm the graveyard in your memory and i wanna see you die

well, i'm the graveyard in your memory and i wanna see you die

i see you smiling, i hear you telling dirty lies
the way you look at me you're looking with the devil's eyes
speaking with a voice from hell, you're telling me our love has
 disappeared
once you let me down but i returned abd bow i'm what you ought
to fear

'cause i'm the graveyard in your memory...

i hear you laughing, laughing behind my back
but i'm following you – yeah, i'm following your track
a long long time ago you broke my heart and let me down
i searched for love with you, but bitterness and hate was what
i found

'cause i'm the graveyard in your memory...
