## Survive or die

## Nekromantix

i met her in a bar - it was love at first sight i went to bed with her, yeah, the very first night tell me the truth doctor, please don't lie is it serious - will i survive or will i die

survive or die will i survive or will i die will i survive or will i die will i survive or will i die

she said to me "we don't need no protection" i trusted in her words, blinded by her affection there is nothing i can do no matter how hard i try an angel of death she was, all i can do is cry

survive or die will i survive or will i die will i survive or will i die will i survive or will i die

now, i've got the disease in me, but i don't wanna die sitting here, all alone, wondering why it happened to me
