

Angel

Nektar

Standing in the rain
Thinking those same thoughts again
Now that I know what lies there before me
I just wish I knew
Which way I can turn and not see you

We made all those plans
Carefully drawn by hand
Now that I know just what lies there before me
I just wish I knew
Which way I can turn and not, not see you

Angel
How could we be so lost
Straight on it's
Down through this life we'll go
And only time will tell before we know

We made, we made all those plans
We were carefully drawn by hand
Now that I know just what lies there before me
I just wish I knew
Which way I can turn and not, I'm not seeing you

Angel
How could we be so lost
Was it straight on
Down through this life we'll go
And only time will tell if we, oh

Oh angel
How could we be so lost
Was it straight on
Down through this life we'll go
And only time will tell before we know

Only time will tell
Before we know
