

Impossibly True

Nell

Dancing, loving, sitting, talking
Watching, staring, kissing you
When we go down to the party
We become so impossibly true

Ride inside your head vibrations
Feel the heatave in your brains
I evaporate sensations
Pumping beat into my vains

Love and kisses, baby hugs
All my friends are taking

Love and kisses
Baby hugs
All my friends are taking drugs

Every inch of me is sacred
Every inch of me is blessed
When you feel the heat inside you
No one puts no one to test

Smash the 'E' and kiss the dancefloor
All it makes me scream for more

Everything we have
All the things we do
Look what we've become
Impossibly true
